Easy moving

# ELBA

To free your domestic mobility without worries go for Elba. Thanks to its quality and superior technology Elba is the solution also for the most demanding staircase, even those with many ramps.

## Freedom and safety

To ease your movement at home go for the comfort and safety of Elba: easy and safe to use on every type of staircase.

Floor remote control

On-board joystick

Footrest and machine body are equipped with sensors for complete security while using

## Friendly use

The simple controls on the armrest ensure easy movement. Elba can also be equipped with an **attendant remote control**.

## Safety and comfort

Elba is equipped with every device **to ensure your safety** while using; equipped with shock - shear and crush proof devices and TUV type approved safety gear. Soft start and speed limiting device near **bends** are just two of the features to ensure the best comfort. The seat rotation and the sturdy footrest ease the landing.

Landing at floor is comfortable and safe with the swivel seat

Easy and safe movements with Elba chairlift

## Small size and stability

Elba can be installed on very long stairs, ensuring minimum encumbrance of curves and landings. The design and double rail guarantee stability and movement comfort.

Folding footrest

## Easy to install

The Elba stairlift is designed and built to suit your staircase in the best way; the needed installation interventions are reduced to the minimum required.
