- ✓ SAFE AND COMFORTABLE
- ✓ FAST DELIVERY

**VIMEC**

# ISCHIA

## Adaptable and elegant

Ischia is the stairlift suitable for **straight staircases**, with an unique technology which ensures full comfort and safety.

The Ischia stairlift is designed and constructed to adapt perfectly to your staircase: this makes it easy to install and minimises installation procedures.

Remote control panel

Control board

The footrest is covered with non-slip material and fitted with safety edges.

## Simple

The joystick placed on the armrest ensures the control of the course in a functional, simple and direct way; the folding seat opens and closes easily, and the radio controls allow to manage the stairlift calling it to the desired floor.

The lever for the rotation of the seat is comfortable and fast

## Minimum size

Decidedly flexible and truly compact for every room, the Ischia seat is also available with a folding guide to aid installation even in **confined spaces**; in addition, for customers with the most sophisticated needs, it features the revolutionary **sliding guide**, that provides **motorised side travel** on the staircase.

Foldable

## Safe and Comfortable

The new Ischia seat is the result of extensive ergonomic design, thanks to Vimec's 30 years of experience in the field of stairlifts. The controls are integrated with the emergency stop button; in addition, on the body there are shockproof and crushproof sensors that cause the device to stop immediately when there is an obstacle on the staircase. All of this is completed with a safety belt featuring an automatic belt winder. As regards **riding comfort**, Ischia has no equal: the seat and backrest cushions, that are washable, are padded to ensure the greatest riding comfort; in addition, thanks to the full seat rotation, landing on the floor is easy and comfortable.

## Focus on technical features:

- The arm joystick gives simple, direct control of travel
- The swivel seat makes getting on and off easy
- The remote control calls the stairlift to the level required starting and stopping are smooth
- ISCHIA has several sensors ensuring that it stops in the event of hazards (such as objects on the stairs)
- **Adjustment of armrest width and seat height**

Seat colour:  
hemp, washable fabric

### Options

- Manual foldable rail at the lower part for indoor
- Powered sliding rail for indoor
- Version for outdoor installations

## Technical data

A	Turn radius (min ÷ max)	730 ÷ 760 mm
B	Backrest to wall distance (min ÷ max)	60 ÷ 70 mm
C	Seat depth 415 mm	415 mm
D	Dimension with footrest up (min ÷ max)	320 ÷ 330 mm
E	Dimension with footrest down (min ÷ max)	607 ÷ 617 mm
F	Outside distance between armrests (min ÷ max)	600 ÷ 660 mm
G	Inside distance between armrests (min ÷ max)	427 ÷ 487 mm
H	Backrest height	423 mm
I	Footplate to seat height (min ÷ max)	410 ÷ 510 mm
J	Minimum footplate height from the ground	50 mm
	Track overall size on staircase (min ÷ max)	190 ÷ 200 mm
	Track min. dimension of parking area on top floor	150 mm
	Minimum width of staircase	750 -780 mm
	Maximum gradient	50°
	Working load	120 kg
	Speed	7 m/min
	Battery power supply voltage	24 V cc
	Mains power supply voltage	240 V
	Power supply unit absorption on mains	1 [A]
	Consumption	0,4 kW
